Major: Political Economics

Publishing year: 2014

Supervisor: Assoc.Prof.Dr. Chu Van Cap

Research purposes and tasks:

- **Research purposes:**
  To evaluate the real situation of foreign indirect investment (FII) in Hai Phong. Solutions, based on that, are recommended to attract more FII for the local.

- **Research tasks:**
  - To present information about the investment environment and the FII.
  - To analyze the real situation of investment environment and FII in Hai Phong in the recent time.
  - To offer solutions and methods to complete the investment environment and boost the FII in Hai Phong in the period from 2011 - 2020.

New contributions:

- Assignments research, analyze and evaluate the real situation of investment environment in order to attract foreign investment and enhance the quality of investment in Hai Phong. They offer potential solutions in improving the investment market and boost the effect and stability in attracting foreign investment in Hai Phong until 2020.

- Assignment can be used as reference for both researching, teaching, studying economic involved subjects and reference for institutes to plan the foreign investment policy at local.
